جامعة الإسكندرية

CyberGuardX
ACADEMY

Introduction

CyberGuardX Academy, in collaboration with the Faculty of Computers and Data Science – Alexandria University, proudly launches this internship to bridge the gap between academic learning and real-world cybersecurity practices. This program offers specialized tracks in Web Development, UI/UX Design, and Cybersecurity.

Through a combination of expert-led sessions, hands-on labs, and project-based learning, students will gain practical experience that prepares them for real challenges in the tech industry. Whether you're looking to start a career or sharpen your skills – this internship is your launchpad.

CYBERGUARDX

About CyberGuardX

CyberGuardX is a multi-disciplinary cybersecurity company operating across training, software development, and managed security services.
 We are building the next generation of cyber defenders, not only through education — but through real, working systems that protect businesses and power digital transformation.

▶▶

- Deliver hands-on cybersecurity training with real-world tools and labs.
- Provide software and AI-based solutions tailored to security challenges.
- Operate as an MSSP to serve businesses with no internal security teams.
- Collaborate with universities and organizations to build future cyber talent.
